GENOMIC MEDICINE – Bridging research and the clinic SUMMER SCHOOL

03. 05. 2016 – 07. 05. 2016

Hotel Histrion, Portorož, Slovenia

Web page: <http://ibk.mf.uni-lj.si/genmed2016>

E-mail: genmed2016@mf.uni-lj.si

Summer school will cover a wide range of topics related to **genomic or personalized medicine, pharmacogenomics**, epigenomics and **translation** of basic research into clinical practice and public health.

Important topics of interest are identification of predictive and prognostic **biomarkers** and novel molecular targets for tailored therapeutic interventions for diseases linked to **oxidative stress** and age-related diseases and disabilities.

Rare diseases and rare cancers, especially epidemiology, pathogenesis/pathology, and treatment modalities for **pancreatic cancer** will also be among the topics of the school.
